

Kimberly-Clark Restricted Substances List

PURPOSE

Nothing is more important to Kimberly-Clark than the quality and safety of our products and the well-being of the consumers who use them. We have rigorous safety and quality requirements and we are proud of our long track record of producing safe products. This commitment to safety includes the ingredients and materials used in our products.

We maintain a Restricted Substances List (RSL) to ensure a consistent, global approach to safeguarding our consumers & employees from exposure to potential ingredients of concern. The Kimberly-Clark Restricted Substances List represents the subset of chemicals that are banned or restricted from our global product portfolio.

Kimberly-Clark closely monitors and carefully considers new information published by scientific research and regulatory agencies globally regarding ingredients, including public perception of ingredients. New information is reviewed in our Product Stewardship Council, which ensures that the content of the Restricted Substances List remains current.

SCOPE

Kimberly-Clark requires world-class quality for all purchased materials, products and services that consistently meet or exceed customers' and consumers' needs, perform as intended and are safe for their intended use. Our suppliers directly share in the responsibility to ensure that the highest degree of diligence is taken to meet or exceed all specified safety, compliance, and quality requirements.

This RSL applies to all Kimberly-Clark products and the materials used in the manufacture of products in the following categories, whether manufactured at a Kimberly-Clark facility or any of our contract suppliers.

- Absorbent Hygiene Products and their component materials.
 - Applies to Adult and baby diapers, feminine hygiene pads/liners, tampons, incontinence pads/liners/garments/briefs and their component materials)
- Formulated Personal Care Products and their component materials
 - Applies to Lotions, shampoo, conditioner, soaps, professional hand soaps and hand sanitizers, baby wipes, perineal wipes, facial cleansing wipes, make-up removing wipes, hand and face wipes, and lotion tissue formulations
- Formulated surface cleaning products and their component materials
 - Applies to cleaning, antimicrobial, and sanitizing sprays and wipes
- Consumer and professional dry tissue products and their component materials.
 - Applies to facial tissue, bath tissue; paper towels and dry wipers

Note that this standard does not cover packaging materials for the above products (including bath tissue and paper towel core materials) which will be addressed separately.

We require our suppliers to adhere to the Kimberly-Clark RSL, and to have processes and systems in place to ensure compliance. Please be advised that:

- This RSL is not intended to replace the supplier's own quality assurance process nor is it meant to be a substitute for the supplier's responsibility to monitor, and supply safe, compliant materials.
- Compliance to this list is not intended to replace a full material disclosure and other required information as defined in the Supplier Stewardship Standard. A full review of information will be completed to not only confirm safety and regulatory compliance but

also to enable us to proactively respond to emerging new regulations and chemicals of concern.

- The RSL is just a short list of the chemicals that we are restricting that are likely most relevant to our consumers. There are also hundreds of other chemicals that we've opted to reduce/restrict in our products not on the RSL. We proactively monitor and assess new information regarding ingredients published by scientific research and regulatory agencies globally, including public perception, to ensure this RSL remains current.
- Some raw material categories have an additional standard that must be followed. (E.g. Kimberly-Clark Fragrance and Essential Oil Standard).

DEFINITIONS

| | |
|--------------------------------------|--|
| CAS Number | Chemical Abstracts Service registry numbers that identify unique substances |
| Formulated Personal Care Products | Formulated Personal Care Products: (including but not limited to lotions, shampoo, conditioner, soaps, professional hand soaps and hand sanitizers) |
| Formulated personal Care Wipes | Formulated personal care wipes and lotion tissue (including but not limited to perineal wipes, facial cleansing wipes, make-up removing wipes, hand and face wipes, and lotion tissue) |
| Formulated Surface Cleaning Products | Formulated surface cleaning products (cleansing, antimicrobial, and sanitizing) |
| Incidental Material | Any ingredient of another ingredient present at a trace level and having no technical or functional effect |
| Kg | Kilogram |
| PPM | Parts per million |
| PPT | Parts per trillion |
| Prohibited | Not intentionally added in the supply chain |
| RSL | Restricted Substances List |
| ug | Microgram |
| Restricted With Permission | Restricted With Permission chemicals can only be used if written consent is provided. |

REGULATORY COMPLIANCE

This list represents the internal Kimberly-Clark position. It is not intended to indicate regulatory requirements and it does not indicate an assessment of risk to humans or the environment for any particular chemical or product.

Suppliers must operate in full compliance with the laws and regulations of the countries in which they operate. When local laws and regulations are less restrictive than this list suppliers are expected to adhere to Kimberly-Clark's requirements.

IMPLEMENTATION AND ENFORCEMENT

This RSL takes effect on the date of issuance. We intend that this requirement be part of all agreements between Kimberly-Clark and its direct and authorized suppliers. We expect our suppliers to develop and implement appropriate internal business processes to ensure compliance with the RSL and communicate these requirements to their suppliers to ensure conformance throughout the supply chain.

We plan to evaluate compliance through product testing as needed for any product or materials requiring further investigation to ensure compliance.

KIMBERLY-CLARK RESTRICTED SUBSTANCES PHASE-OUTS

The following chemicals are currently identified for phase-out. After the effective date, Kimberly-Clark will no longer accept materials containing the restricted substance.

We expect our suppliers to develop and implement appropriate internal business processes to ensure compliance with their suppliers.

| Category | Substance | CAS Number | Effective Date |
|----------|-----------------------------------|------------|--|
| Talc | Hydrous Magnesium Silicate (Talc) | 14807-96-6 | PROHIBITED Effective March 31, 2019 |

**KIMBERLY-CLARK PROHIBITED AND RESTRICTED SUBSTANCES
IN ALL PRODUCT CATEGORIES**

| <p>Kimberly-Clark Restricted Substances for all product categories are listed below.</p> <p>The chemicals are prohibited and/or restricted in the manufacture of the Kimberly-Clark products identified in the scope, including incidental materials.</p> <p>We expect our suppliers to develop and implement appropriate internal business processes to ensure compliance with their suppliers.</p> | | | |
|---|--|-------------------|--------------------|
| Category | Substance | CAS Number | Restriction |
| Alkanolamides | Diethanolamine | 111-42-2 | PROHIBITED |
| Alkyl Phenol, Alkyl Phenol ethoxylates, Nonylphenol and Nonylphenol Ethoxylates (note including but not limited to the CAS numbers identified) | Alkylphenols: Nonylphenol (NP), Nonylphenol ethoxylate (NPE), Octylphenol (OP) and Octylphenol ethoxylates (OPE) 4-Nonylphenol, branched: | 84852-15-3 | PROHIBITED |
| | n-Nonylphenol | 25154-52-3 | PROHIBITED |
| | Nonylphenol ethoxylate | 127087-87-0 | PROHIBITED |
| | Polyethylene glycol nonylphenylether | 9016-45-9 | PROHIBITED |
| | Tris-nonylphenyl phosphite (TNPP) | 26523-78-4 | PROHIBITED |
| | Octylphenol | 27193-28-8 | PROHIBITED |
| | Ethoxylated octylphenol | 9036-19-5 | PROHIBITED |

KIMBERLY-CLARK PROHIBITED AND RESTRICTED SUBSTANCES

FORMULATED PERSONAL CARE PRODUCTS; FORMULATED PERSONAL CARE WIPE PRODUCTS, AND FORMULATED SURFACE CLEANING PRODUCTS

Kimberly-Clark Restricted Substances for “formulated products” are listed below. Formulated products must comply with the Restricted Substances – All products as well as the following restrictions. The chemicals listed are prohibited and/or restricted in the production of Kimberly-Clark formulated products, including incidental materials.

Formulated products include:

- **Formulated Personal Care Products:** Formulated Personal Care Products: (including but not limited to lotions, shampoo, conditioner, soaps, professional hand soaps and hand sanitizers)
- **Formulated personal Care Wipes:** Formulated personal care wipes and lotion tissue (including but not limited to perineal wipes, facial cleansing wipes, make-up removing wipes, hand and face wipes, and lotion tissue)
- **Formulated Surface Cleaning Products:** Formulated surface cleaning products (cleansing, antimicrobial, and sanitizing)

We expect our suppliers to develop and implement appropriate internal business processes to ensure compliance with their suppliers.

| Category | Substance | CAS Number | Restriction |
|---|--|------------|--|
| Alkanolamides | Cocamide DEA | 68603-42-9 | PROHIBITED (WITH PERMISSION ONLY) |
| Formaldehyde and Formaldehyde releasing preservatives | Bronopol (2-Bromo-2-Nitropropane-1,3-Diol) | 52-51-7 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| | Diazolidinyl urea | 78491-02-8 | RESTRICTED (WITH PERMISSION ONLY IN INSURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| | DMDM Hydantoin | 6440-58-0 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| | Imidazolidinyl urea | 39236-46-9 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| | Methenamine | 100-97-0 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| | Sodium hydroxymethylglycinate | 70161-44-3 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND |

| | | | |
|------------------|--|---------------------------------------|--|
| | | | PROFESSIONAL FORMULATED PRODUCTS) |
| Impurities | 1,4-Dioxane | 121-91-1 | PROHIBITED THRESHOLD LIMIT <10 PPM |
| IPBC | Iodopropynyl butylcarbamate (IPBC); 3-iodo-2-propynyl-butylcarbamate | 55406-53-6 | PROHIBITED (ABSORBENT HYGIENE PRODUCTS, BABY AND CHILD FORMULATED PRODUCTS, PERINEAL CARE FORMULATED PRODUCTS, AND AEROSOLIZED PRODUCTS) RESTRICTED (WITH PERMISSION ONLY IN ALL OTHER PRODUCTS IN SCOPE) |
| Isothiazolinones | Benzisothiazolinone | 2634-33-5 | PROHIBITED |
| | Methylchloroisothiazolinone/ Methylisothiazolinone | 26172-55-4 2682-20-4 55965-84-9 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) LIMIT: ≤15 PPM IN FINISHED PRODUCT |
| | Methylisothiazolinone | 2682-20-4 | PROHIBITED |
| Microbeads | Microbeads | Multiple | PROHIBITED |
| Parabens | Ethyl paraben | 120-47-8 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| | Methylparaben | 99-76-3 | RESTRICTED (WITH PERMISSION ONLY IN SURFACE CLEANING, AND PROFESSIONAL FORMULATED PRODUCTS) |
| Siloxanes | Cyclotetrasiloxane (D4) (AKA octamethylcyclotetrasiloxane) | 293-51-6 556-67-2 | PROHIBITED THRESHOLD LIMIT <100 PPM IN CHILDREN'S PRODUCTS |
